

MILLIANIGAN, INC. MEETING, MAY 26, 1991

NOT PRESENT: Denlers, Francis', Krohns, Tweetens & Wails

Meeting was opened by President, Jim Fredlake.

Secretary read the minutes from the meeting of September 1, 1990 - they were approved as read.

Treasurer, Diane Tweeten was unable to attend so called in a report to Jim. The balance as of May 31 -4,077.86. Everyone will be sent a copy along with their current balance for maintenance fees. There is \$600.00 outstanding in maintenance fees. In case anyone does not have Diane's new address to send their fees it is: 209 BRYAN DRIVE, MANHATTEN, IL 60442. Jim reported Weed Control will be out June 4 to treat the weeds in the channel - that will be \$436.00. There are also several bills to be paid for the sand, gravel and boards for the work on the beach. He said if we have no unanticipated bills other than the dumpster, electricity for the pump, insurance etc. he feels we can probably drop the maintenance fee in fall for several months. He had the tax assessment bill for 1991 which is \$104,300, up from \$98,100 for 1990.

Bill Francis, Bob and Jim went to Dowagiac to get bottles to have our water tested again.

BUILDING & GROUNDS Dick Bruno reported the beach took a severe beating over the winter and they are attempting to correct it by building a sea wall and putting gravel and more sand in. We had one load of gravel and one of sand delivered but it will not be enough to complete the job. Dick made a motion to purchase another load or two of sand to complete the beach project. It was seconded by Paul Gill and passed. He asked for some workers to help with the beach after the meeting. Dick thanked all who helped with corporation projects but particularly Greg Wails for all he did on the shed for the tractor. He also mentioned he can get more of the boards from school for anyone to use on redoing their docks. If anyone has a truck and can bring some up see Dick and he will arrange it.

Jim reported Mildred has donated their hand mower to the corporation.

Ann Gill mentioned they had their gas shut off this winter and -was informed by the gas company that anyone who wants theirs off for the winter must have their own shut off valve.

It was also mentioned that everyone should pay careful attention to their children, grandchildren or guests around the bridge, beach etc. The water is deep in the channel-in the past we suggested any children fishing off the bridge should wear life jackets if their parents are not there with them. IT IS YOUR RESPONSIBILITY TO INFORM YOUR GUESTS.

Meeting was adjourned at 11:45.

Dot Ghyselink, Secretary
